Contents

Preface ..... **V**

Introduction **1**

Definitions **5**

1. General provisions **11**

1.1. Objectives 11

1.2. Scope and application 12

2. General principles and practices **14**

2.1. Principles 14

2.2. Organizational measures 14

2.3. Procedures 16

3. General duties **17**

3.1. Cooperation 17

3.2. Competent authority 18

3.3. Employers 20

3.4. Workers' duties and rights 24

4. General principles of prevention and protection **30**

4.1. Enterprise safety and health policy and management system 30

4.2. Risk assessment and risk management 34

4.3. Investigating and reporting occupational accidents, occupational diseases and incidents 37

4.4. Information, training and competence 38

4.5. Surveillance of the working environment 41

4.6. Workers' health surveillance 47

4.7. Emergency procedures and first aid 51

4.8. Engineering controls 53

4.9. Personal protection 54

4.10. Personal hygiene 57

5. Prevention and protection specific to non-ferrous metals production processes **59**
5.1. Hazards and health effects 59
5.2. Physical hazards 60
5.3. Chemical hazards 82
5.4. Safety hazards 100

6. Furnaces **114**
6.1. General 114
6.2. Preventing fires and explosions 115
6.3. Lighting furnaces 116
6.4. Dusts and fibres 116
6.5. Maintaining tap holes 117
6.6. Preventing slips and falls in furnace areas 117

7. Handling molten metal, dross or slag **119**
7.1. Hazard description 119
7.2. Assessment of risk 119
7.3. Control strategies 119
7.4. Work practices 121

8. Process and waste gases **124**

9. Specific metals in the non-ferrous metals industries **127**
9.1. General 127
9.2. Aluminium 127
9.3. Arsenic 128
9.4. Beryllium 128
9.5. Cadmium 129
9.6. Chromium 129
9.7. Cobalt 130
9.8. Copper 131
9.9. Lead 131

9.10. Magnesium 132
9.11. Manganese 132
9.12. Mercury 132
9.13. Nickel 133
9.14. Platinum 134
9.15. Selenium 134
9.16. Tin 135
9.17. Zinc 135

10. Recycling non-ferrous metals **137**
10.1. General treatment 137
10.2. Aluminium recycling 138
10.3. Copper recycling 140
10.4. Lead recycling 142
10.5. Zinc recycling 142
10.6. Nickel recycling 143
10.7. Cadmium recycling 144
10.8. Magnesium recycling 144

Appendices

A. Occupational exposure limits for hazardous substances, electric and magnetic fields, optical radiation, heat, noise and vibration 145
B. Additional chemicals used in the non-ferrous metals industries 153

Figure

4.1. Occupational safety and health management system (OSH-MS) 31

Table

7.1. Detailed hazards relative to each casting process ... 120

Index 156
