

## CONTENTS

|  |            |
|--|------------|
| <b>Foreword</b>  | <b>v</b>   |
| <b>Acknowledgements</b>  | <b>xv</b>  |
| <b>1. Introduction</b> ( <i>Peter Auer and Sandrine Cazes</i> )  | <b>1</b>   |
| 1.1 No more stable jobs?   | 1          |
| 1.2 Country experiences: Trade-off or complementarity between employment and social protection   | 11         |
| 1.3 The implications of these findings for employment analysis and policy advice   | 17         |
| <b>2. The resilience of the long-term employment relationship</b> ( <i>Peter Auer and Sandrine Cazes</i> )   | <b>22</b>  |
| 2.1 Introduction   | 22         |
| 2.2 Evaluating job stability   | 22         |
| 2.3 Job security versus job stability: How to measure job security?  | 47         |
| 2.4 Explaining the paradox   | 53         |
| Annex 2.1 Sources and definitions of data  | 57         |
| <b>3. "Flexicurity" through labour market policies and institutions in Denmark</b> ( <i>Per Kongshøj Madsen</i> )  | <b>59</b>  |
| 3.1 Introduction   | 59         |
| 3.2 The flexibility of the employment relationship   | 60         |
| 3.3 Labour market effects of employment protection and labour market policies  | 90         |
| 3.4 The "golden triangle" of flexicurity: Conclusions  | 100        |
| <b>4. Flexibility, stability and the interaction between employment protection and labour market policies in France</b> ( <i>Bénédicte Galtier and Jérôme Gautié</i> ) | <b>106</b> |
| 4.1 Introduction   | 106        |
| 4.2 Employment stability and flexibility   | 107        |
| 4.3 Interactions between EPL and LMP: Regulations, institutions and programmes   | 125        |
| 4.4 Interactions between EPL and LMP: Origins and outcomes   | 139        |
|  | <b>vii</b> |

## Contents

|  |     |
|--|-----|
| 4.5 Reforms affecting EPL and LMP  | 149 |
| 4.6 Summary and conclusions  | 153 |
| <b>5. Stability and change: Japan's employment system under pressure</b><br>( <i>Olivier Passet</i> )      | 159 |
| 5.1 Introduction   | 159 |
| 5.2 The permanence of the Japanese model of "internal flexibility", and its implications for job stability | 161 |
| 5.3 The Japanese paradox: Acute perception of job insecurity in a context of job stability                 | 170 |
| 5.4 Labour market policy and its effectiveness: Consistency with employment protection legislation         | 197 |
| 5.5 Conclusions  | 209 |
| Annex 5.1 The Japanese numerical stability of employment   | 211 |
| Annex 5.2 Younger workers: Voluntary flexibility or displaced employment opportunities?                    | 214 |
| <b>6. Flexibility and commitment in the United States labour market</b><br>( <i>Paul Osterman</i> )        | 218 |
| 6.1 Introduction   | 218 |
| 6.2 Aggregate measures of stability  | 220 |
| 6.3 The behaviour of firms   | 227 |
| 6.4 Public policy  | 240 |
| 6.5 Conclusion   | 249 |
| <b>Bibliography</b>  | 250 |
| <b>Index</b>   | 260 |
| <b>List of tables</b>  |     |

---

|   |     |
|---|-----|
| 1.1 Simplified relations between employment protection and social protection through labour market polices for Denmark, France, Japan and the United States | 12  |
| 2.1 Average employment tenure and distribution of class of tenure, 1992-2000  | 25  |
| 2.2 Mode and frequency of tenure distribution, 1992-99  | 27  |
| 2.3 Average tenure by sex, age, sector and education, 1996 and 2000   | 36  |
| 2.4 Fixed-term contracts as a percentage of total employment, 1991-2000   | 45  |
| 2.5 Measures of labour turnover   | 52  |
| 3.1 Participants in active measures and open unemployment, full-time equivalents, 1994-99   | 79  |
