

## CONTENTS

<b>Foreword</b>	<b>v</b>
<b>Acknowledgements</b>	<b>xiii</b>
<b>1 Introduction: The case for labour market institutions in transition countries</b>	<b>1</b>
1.1 Labour market flexibility	1
1.2 Changing labour markets	2
1.3 Trade-offs and complementarities	3
1.4 Implications for employment analysis and policy advice	4
<b>2 Labour market developments in the 1990s: An overview of the transition countries</b>	<b>7</b>
2.1 Labour market trends: Common features and differences across transition countries	8
2.2 Factors contributing to cross-country differences in labour market development in transition countries	20
2.3 Conclusions	30
<b>3 Changing characteristics of employment</b>	<b>31</b>
3.1 Sectoral changes in employment	31
3.2 "Privatization" of employment	37
3.3 Increasingly flexible forms of employment	43
3.4 Conclusions	51
<b>4 Labour market dynamics in the 1990s: A comparative analysis</b>	<b>53</b>
4.1 Labour turnover in the 1990s	53
4.2 What do job-tenure data tell us about employment stability?	64
4.3 Job security versus job stability	76
4.4 Conclusions	83

## Labour markets in transition

<b>5</b>	<b>The impact of EPL on labour market outcomes: Evidence from transition and Western industrialized countries</b>	<b>85</b>
5.1	Introduction	85
5.2	Existing work	86
5.3	Development of EPL over the 1990s: A cross-country comparison in CEE countries	90
5.4	Measuring EPL strictness	97
5.5	Preliminary evidence (bivariate associations)	102
5.6	Conclusions	105
	Annex 5.1 EPL in selected transition countries	108
<b>6</b>	<b>The role of labour market institutions, social dialogue and labour taxation</b>	<b>113</b>
6.1	Introduction: Beyond EPL	113
6.2	Labour market institutions in the late 1990s: Transition versus OECD countries	114
6.3	Preliminary evidence in transition countries	123
6.4	Conclusions	131
	Annex 6.1 Definitions and data sources	133
	Annex 6.2 Test methodology	135
<b>7</b>	<b>Policy conclusions</b>	<b>137</b>
7.1	A summary of findings	137
7.2	Two models of labour management for the transition countries	139
7.3	Conclusions	141
	<b>Bibliography</b>	<b>145</b>
	<b>Index</b>	<b>149</b>
	<b>List of tables</b>	
2.1	GDP and employment in transition economies: Average annual growth rates, selected years (percentages)	9
2.2	Participation rates of population aged 15–64, transition economies, 1990 and 1999 (percentages)	12
2.3	Participation rates according to age group, transition economies, 1990 and 1999 (percentages)	13
2.4	Registered unemployment (as a percentage of labour force at end of each year), transition economies, 1994, 1998 and 2000	15
2.5	Total unemployment, selected transition countries, 1994, 1998 and 2000	16
2.6	Youth total (LFS) unemployment rate, selected transition economies, 2000 (percentages)	18
2.7	Composition of population, aged 15–64, according to education level, selected transition economies, 2000 (percentage of total population)	25

## Contents

3.1	Employment structure by sector, selected transition countries, 1990 and 1999 (percentages)	33
3.2	Self-employment as a share of total employment, selected transition economies, 1993 and 2000 (percentages)	40
3.3	Temporary employment as share of wage employment, by sex, selected transition countries, 1993 and 2000 (percentages)	45
3.4	Part-time employment as share of total employment, by sex, selected transition countries, 1993 and 2000 (percentages)	48
3.5	Multiple-job holding as share of total employment, selected transition countries (percentages)	50
4.1	Labour turnover, accession and separation rates for selected transition countries in the 1990s (percentages)	56
4.2	Comparison of labour turnover and job turnover for selected transition economies, 1994–97 (percentages)	59
4.3	Correlations between GDP and employment dynamics (E) versus labour turnover (LT), selected transition countries	61
4.4	Distribution of employment by job tenure, 1999, selected transition countries (percentages)	65
4.5a	Average job tenure in selected transition countries, 1993–99 (years)	67
4.5b	Average job tenure by sex in selected transition countries, 1993–99 (years)	67
4.6	Distribution of employment by job tenure for the Czech Republic, Poland and Slovenia, 1993–99 (percentages)	69
4.7	Average job tenure by sex, age, sector, occupation and education, selected transition countries, 1999 (years)	72
4.8	Average tenure by enterprise size, selected transition countries, 1999 (years)	75
4.9	Separation rates by reason of separation (percentages)	77
4.10	Separation rates by destination of outflows from employment, selected transition countries, 1990–2000 (percentages)	79
4.11a	Correlation coefficients of GDP and outflows from employment by destination for selected transition countries	82
4.11b	Correlation coefficients of employment growth and outflows from employment by destination for selected transition countries	82
5.1	Rankings of selected OECD countries by strictness of EPL, according to different indicators	98
5.2	Employment protection index: Selection of indicators and weighting scheme	99
5.3	EPL indicators in selected transition countries, late 1990s	100
6.1	Characteristics of the unemployment insurance system in selected transition countries, 1998	116
6.2	Spending on passive and active LMP in selected transition countries, 1998	117
6.3	Trade unions and collective bargaining, mid-1990s	119

## Labour markets in transition

6.4	Regressions explaining log unemployment rate (dependent variable) for selected transition and OECD countries, late 1990s	125
6.5	Regressions explaining log long-term unemployment rate (dependent variable) for selected transition and OECD countries, late 1990s	126
6.6	Regressions explaining log youth unemployment rate (dependent variable) for selected transition and OECD countries, late 1990s	128
6.7	Regressions explaining labour input measures (dependent variable) for selected transition and OECD countries, late 1990s	130

## List of figures

---

4.1	Labour turnover, GDP and employment growth, selected transition countries, 1990–99	62
4.2	GDP growth and separation rates by destination, 1990–99 (percentages)	81
5.1	EPL index in selected OECD and transition countries, late 1990s	101
5.2	EPL strictness, unemployment and employment	103
	A. LFS unemployment rates, averages over 1992–98	103
	B. LFS youth unemployment rates, averages over 1992–98	103
	C. Overall employment-to-population ratio, averages over 1994–98	103
	D. Shares of self-employment, 1999	104
	E. Temporary employment, 1999	104
5.3	EPL strictness and labour market dynamics	106
	A. Labour turnover, averages over 1993–98	106
	B. Average job tenure, 1998	106
	C. Long-term unemployment, averages over 1993–98	106
6.1	Tax burden on labour in selected OECD and transition countries	122

## List of boxes

---

5.1	A summary of empirical evidence on the labour market effects of stricter EPL	89
